Reliability Indicator:

Not established

Turn Quantity:

120 single component single winding

Coil Form Type:

Hollow single component

Inclosure Type:

Open

Mounting Method:

Terminal single group

Rating Method:

Winding turns single component single winding

Winding Conductor Size:

0.00480 inches standard wire gage single component single winding

Special Features:

Color coded green-black-orange

Terminal Type And Quantity:

2 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A058b0
