Reliability Indicator:

Not established

Overall Length:

0.620 inches

Coil Form Type:

Hollow single component

Body Outside Diameter:

0.422 inches

Mounting Tab Width:

0.025 inches

Inclosure Type:

Fully enclosed

Mounting Method:

Tab single group

Winding Function And Quantity:

1 primary, variable autotransformer type single component

Terminal Type And Quantity:

4 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A058b0
