Reliability Ir	ndicator:
Not establish	ned
Turn Quanti	ity:
1-1/2 single of	component single secondary
Center To C	enter Distance Between Mounting Facilities Parallel To Length:
0.200 inches	single mounting facility single center group
Center To C	enter Distance Between Mounting Facilities Parallel To Width:
0.200 inches	single mounting facility single center group
Mounting He	ole Diameter:
0.125 inches	single group
Inductance	Rating:
23.00 microh	nenries single component single primary and 29.00 microhenries single component single primary
Frequency F	Rating:
6.0 kilohertz	single component
Coil Form T	уре:
Solid single of	component
Winding Shi	ielding Method:
Internal shiel	d brought out to terminal single component
Body Lengt	h:
0.490 inches	
Body Outsic	de Diameter:
0.422 inches	
Inclosure Ty	/pe:
Partially encl	losed, half shell
Mounting Fa	acility Quantity:
4 single grou	p
Mounting M	ethod:
Unthreaded	hole single group
Rating Meth	od:
Electrical sin	gle component single secondary
Winding Fu	nction And Quantity:
1 primary sin	gle component and 1 secondary single component
Terminal Ty	pe And Quantity:
5 pin	
Shelf Life:	
N/a	
Unit Of Mea	sure:
 Demilitariza	tion:
No	
Fiig:	
A058b0
