**Reliability Indicator:**

Not established

**Overall Length:**

3.719 inches

**Overall Height:**

4.281 inches

**Overall Width:**

1.219 inches

**Frequency Rating:**

50.0 hertz single component and 400.0 hertz single component

**Input-output Phase Relationship:**

Single phase to single phase single component

**Maximum Transformer Power Rating:**

25.0 volt-ampere single component

**Inclosure Type:**

Fully enclosed

**Mounting Method:**

Terminal single group

**Winding Function And Quantity:**

1 secondary single component

**Winding Operating Current:**

5.0 amperes ac single component single secondary

**Special Features:**

Prietary rated but not included

**Terminal Type And Quantity:**

2 screw

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A058b0
