-	dicator:
Not establish	
	enter Distance Between Mounting Facilities Parallel To Length:
	single mounting facility single center group
	enter Distance Between Mounting Facilities Parallel To Width:
	single mounting facility single center group
Frequency R	-
	nd 65.0 hertz single component
	Phase Relationship:
•	to single phase single component
	elding Method:
	d grounded to inclosure single component
Body Length	n:
3.750 inches	
Body Width:	
3.125 inches	
Body Height	:
3.500 inches	
Inclosure Ty	pe:
Open	
Mounting Fa	cility Quantity:
4 single grou	ρ
Mounting Me	ethod:
Flange and u	unthreaded hole single group
Winding Fur	action And Quantity:
2 primary an	d 3 secondary single component
Winding Ope	erating Current:
44.0 milliamp	eres ac single component 1st secondary
Winding Ope	erating Voltage:
785.00 ac vo	ts single component 1st secondary
Terminal Typ	be And Quantity:
11 tab, solde	er lug
Shelf Life:	
N/a	
Unit Of Meas	sure:
Demilitarizat	ion:
No	
Fiig:	
A058b0
