Reliability Indicator:

Not established

Coil Form Type:

Solid single component

Body Length:

0.500 inches

Body Outside Diameter:

0.375 inches

Inclosure Type:

Fully enclosed

Mounting Method:

Terminal single group

Adjustment Method And Quantity:

1 adjustable core single component

Terminal Type And Quantity:

5 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A058b0
