Reliability Indicator:

Not established

Inductance Rating:

31.40 microhenries single component single winding and 34.60 microhenries single component single winding

Body Length:

1.010 inches

Body Outside Diameter:

0.275 inches

Inclosure Type:

Open

Mounting Method:

Terminal single group

Terminal Type And Quantity:

2 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
