**Reliability Indicator:**

Not established

**Turn Quantity:**

75 single component single winding

**Inductance Rating:**

83.00 microhenries single component single winding

**Body Length:**

0.625 inches

**Body Outside Diameter:**

1.562 inches

**Inclosure Type:**

Open

**Mounting Method:**

Terminal single group

**Winding Conductor Size:**

0.05707 inches american wire gage single component single winding

**Special Features:**

Conductor w/enamel insulation; multiple layer wound type

**Terminal Type And Quantity:**

2 wire lead

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A058b0
