Radio Frequency Coil - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5950-00-556-2649

Reliability Indicator:
Not established
Turn Quantity:
G single component single winding
Body Length:
1.750 inches
Body Outside Diameter:
0.250 inches
Inclosure Type:
Open
Mounting Method:
Terminal single group
Winding Conductor Size:
0.03196 inches american wire gage single component single winding
Special Features:
Conductor w/enamel insulation; single layer wound type
Terminal Type And Quantity:
2 wire lead
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A058b0
