Reliability Indicator:

Not established

Turn Quantity:

2 single component single winding

Winding Quantity:

1 single component

Inclosure Type:

Open

Mounting Method:

Terminal single group

Rating Method:

Electrical single component single winding and winding turns single component single winding

Winding Conductor Size:

0.14430 inches american wire gage single component single winding

Winding Operating Current:

37.8 amperes ac single component single winding and 42.0 amperes ac single component single winding

Dc Resistance Rating In Ohms:

0.009 single component single winding

Precious Material And Location:

Coil ends silver

Precious Material:

Silver

Terminal Type And Quantity:

2 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
