Turn Quantity:

45 single component single winding

Core Construction:

Powdered single component

Body Length:

0.625 inches

Body Outside Diameter:

0.198 inches

Inclosure Type:

Open

Mounting Method:

Terminal single group

Winding Conductor Size:

0.01003 inches american wire gage single component single winding

Special Features:

Conductor w/formvar insulation; single layer wound type

Terminal Type And Quantity:

2 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
