Overall Length:

0.875 inches

Turn Quantity:

240 single component single winding

Inductance Rating:

400.00 microhenries single component single winding

Core Construction:

Powdered single component

Overall Diameter:

0.375 inches

Inclosure Type:

Open

Mounting Method:

Terminal single group

Winding Conductor Size:

0.01003 inches american wire gage single component single winding

Special Features:

Adjustment quantity, 1

Terminal Type And Quantity:

2 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
