Overall Length:
0.875 inches
Turn Quantity:
240 single component single winding
Inductance Rating:
400.00 microhenries single component single winding
Core Construction:
Powdered single component
Overall Diameter:
0.375 inches
Inclosure Type:
Open
Mounting Method:
Terminal single group
Winding Conductor Size:
0.01003 inches american wire gage single component single winding
Special Features:
Adjustment quantity, 1
Terminal Type And Quantity:
2 wire lead
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A058b0
