	bility Indicator: stablished
	sformer Function:
Inters	
	uency Rating:
	2 megahertz single component
	stment Device Drive Type:
	ed screw single component
-	y Length:) inches
	v Width:
	v Height:
) inches
	nting Facility Quantity:
	gle group
	nting Method:
	aded hole single group
	ling Function And Quantity:
	nary single component and 1 secondary single component ady Qty Per Inch (tpi):
	ngle group
	ad Size:
	B inches single group
	stment Method And Quantity:
-	ustable capacitor single component
	ad Series Designator:
	single group
	inal Type And Quantity:
	, solder lug
	Life:
N/a	
	Of Measure:
Demi	ilitarization:
No
