Reliability Indicator:

Not established

Body Length:

0.375 inches

Body Outside Diameter:

0.410 inches

Inclosure Type:

Fully enclosed

Mounting Method:

Terminal single group

Winding Function And Quantity:

1 primary and 2 secondary single component

Dc Resistance Rating In Ohms:

17.200 single component single primary

Terminal Type And Quantity:

6 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A058b0
