**Reliability Indicator:**

Not established

**Overall Height:**

4.531 inches

**Input-output Phase Relationship:**

Single phase to single phase single component

**Winding Shielding Method:**

Internal shield grounded to core 2nd component

**Inclosure Type:**

Fully enclosed

**Mounting Facility Quantity:**

8 single group

**Mounting Method:**

Threaded stud single group

**Winding Function And Quantity:**

1 primary and 1 secondary single component

**Terminal Type And Quantity:**

10 solder stud

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A058b0
