Reliability Indicator:
Not established
Turn Quantity:
1/2 single component single winding
Body Length:
0.880 inches
Body Width:
0.040 inches
Body Height:
0.360 inches
Inclosure Type:
Open
Mounting Method:
Terminal single group
Winding Conductor Size:
0.04030 inches american wire gage single component single winding
Special Features:
Special Features: Partial turn type
Partial turn type
Partial turn type Terminal Type And Quantity:
Partial turn type Terminal Type And Quantity: 2 wire lead
Partial turn type Terminal Type And Quantity: 2 wire lead Shelf Life:
Partial turn type Terminal Type And Quantity: 2 wire lead Shelf Life: N/a
Partial turn type Terminal Type And Quantity: 2 wire lead Shelf Life: N/a Unit Of Measure:
Partial turn type Terminal Type And Quantity: 2 wire lead Shelf Life: N/a Unit Of Measure:
Partial turn type Terminal Type And Quantity: 2 wire lead Shelf Life: N/a Unit Of Measure: Demilitarization:
Partial turn type Terminal Type And Quantity: 2 wire lead Shelf Life: N/a Unit Of Measure: Demilitarization: No
