	ity Indicator:
Not esta	
	Length:
0.562 in	
Center ⁻	To Center Distance Between Mounting Facilities Parallel To Length:
0.414 in	ches single mounting facility single center group
Center ⁻	To Center Distance Between Mounting Facilities Parallel To Width:
0.100 in	ches single mounting facility single center group
Overall	Width:
0.437 in	ches
Transfo	rmer Function:
Interstag	je
Frequer	ncy Rating:
80.1 me	gahertz single component
Coil For	т Туре:
Hollow s	ingle component
Adjustn	nent Device Drive Type:
Slotted s	screw single component
Winding	g Shielding Method:
Internal	shield grounded to inclosure single component
Body H	eight:
0.641 in	ches
Mountir	ng Tab Width:
0.046 in	ches
Inclosu	re Туре:
Fully end	closed
Mountir	ng Method:
Tab sing	le group
Winding	g Function And Quantity:
1 primar	y single component and 1 secondary single component
Adjustn	nent Method And Quantity:
1 adjusta	able core single component
Preciou	s Material:
Silver	
Termina	al Type And Quantity:
4 wire le	ad
Shelf Li	fe:
N/a	
Unit Of	Measure:
Demilita	arization:
No
