Reliability Indicator:

Not established

Frequency Rating:

50.0 hertz or 60.0 hertz single component

Input-output Phase Relationship:

Three phase to three phase single component

Winding Function And Quantity:

1 primary and 1 secondary single component

Winding Power Rating:

1350.0 volts-amperes single component single secondary

Winding Operating Voltage:

230.00 ac volts and 460.00 ac volts single component single primary

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
