Reliability Indicator:

Not established

Coil Form Type:

Air wound single component

Body Length:

22.0 millimeters

Body Width:

9.0 millimeters

Body Height:

9.0 millimeters

Inclosure Type:

Open

Mounting Method:

Terminal single group

Terminal Type And Quantity:

2 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A058b0
