General Description:

Enacpsulated case, 1.160 inch maximum dia, 2 turret nas704-1 terminals, 11 turns number 18awg evenly around core, 10000 hours min life expectancy, continuous duty cycle, 40 khz operating frequency, 12v dc working voltage, m 54 to 100 degrees c ambient operating temperature, operates to 70000 feet altitude

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
