Reliability Indicator:

Not established

Turn Quantity:

632 single component single winding

Core Construction:

Solid single component

End Application:

An/mst-t1a

Winding Quantity:

1 single component

Inclosure Type:

Fully enclosed

Mounting Method:

Terminal single group

Rating Method:

Winding turns single component single winding

Winding Conductor Size:

0.01264 inches american wire gage single component single winding

Special Features:

T.O. 43d7-19-2-4; n/h/a circuit card assembly

Terminal Type And Quantity:

2 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:
