Reliability Indicator:

Not established

Frequency Rating:

20.0 kilohertz single component

Input-output Phase Relationship:

Single phase to single phase single component

Winding Function And Quantity:

2 primary and 4 secondary single component

Winding Operating Voltage:

5.60 ac volts single component 1st secondary

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
