Inductance Type:

Fixed

Inductance Rating:

10.00 millihenries single component single winding

Winding Quantity:

1 single component

Winding Operating Current:

2.5 amperes dc single component single winding

Dc Resistance Rating In Ohms:

0.100 single component single winding

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
