**Inductance Type:**

Fixed

**Inductance Rating:**

10.00 millihenries single component single winding

**Winding Quantity:**

1 single component

**Winding Operating Current:**

2.5 amperes dc single component single winding

**Dc Resistance Rating In Ohms:**

0.100 single component single winding

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A058b0
