Reliability Indicator:

Not established

Overall Length:

0.620 inches

Overall Height:

0.750 inches

Overall Width:

0.610 inches

Inductance Rating:

820.00 microhenries single component single secondary

Frequency Rating:

796.0 kilohertz single component

End Application:

Ceer-adf-511a

Inclosure Type:

Hermetically sealed

Mounting Method:

Clamp single group

Rating Method:

Electrical single component single secondary

Winding Function And Quantity:

1 secondary single component

Terminal Type And Quantity:

5 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
