**Reliability Indicator:**

Not established

**Inductance Rating:**

26.00 microhenries single component single winding

**Frequency Rating:**

1.0 kilohertz single component

**Winding Quantity:**

1 single component

**Winding Operating Current:**

1.0 amperes dc single component single winding

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A058b0
