Turn Quantity:

19 single component single winding

Inductance Rating:

0.68 microhenries single component single winding

Core Construction:

Solid single component

Inclosure Type:

Fully enclosed

Mounting Facility Quantity:

2 single group

Mounting Method:

Terminal single group

Terminal Type And Quantity:

2 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
