General Description:

Two coils and a magnet encapsulated, insulated with polyimide and fiberglass, vacuum impregnated, strapped and encased; working voltage 25; full rated current 4.5 amp dc; operating freq range 110 to 130 hz; inductance 11.7 millihenries min.; 1000 megohms min insulation resistance; continuous duty; oper temp 0 to 75 degrees c; altitude to 10000 ft; dims 2.98 in. Lg; 1.83 in. W; 2.90 in. H

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
