Reliability Indicator:

Not established

Turn Quantity:

6 single component single winding

Center To Center Distance Between Mounting Facilities Parallel To Length:

1.150 inches single mounting facility single center group

Center To Center Distance Between Mounting Facilities Parallel To Width:

0.300 inches single mounting facility single center group

Mounting Hole Diameter:

0.127 inches single group and 0.128 inches single group

Coil Form Type:

Solid single component

Body Length:

1.342 inches

Body Width:

1.100 inches

Body Height:

0.500 inches

Inclosure Type:

Open

Mounting Facility Quantity:

4 single group

Mounting Method:

Unthreaded hole single group

Precious Material And Location:

Plate silver

Precious Material:

Silver

Terminal Type And Quantity:

2 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
