**Reliability Indicator:**

Not established

**Input-output Phase Relationship:**

Single phase to single phase single component

**Body Length:**

2.260 inches

**Body Width:**

2.240 inches

**Body Height:**

2.100 inches

**Inclosure Type:**

Fully enclosed

**Mounting Method:**

Terminal single group

**Winding Function And Quantity:**

1 primary and 3 secondary single component

**Cubic Measure (non-core):**

10.6 cubic inches

**Terminal Type And Quantity:**

12 wire lead

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A058b0
