**Reliability Indicator:**

Not established

**Input-output Phase Relationship:**

Single phase to single phase single component

**Inclosure Type:**

Fully enclosed

**Mounting Method:**

Terminal single group

**Winding Function And Quantity:**

1 primary and 1 secondary single component

**Winding Operating Voltage:**

120.00 ac volts and 208.00 ac volts and 240.00 ac volts and 416.00 ac volts and 480.00 ac volts and 800.00 ac volts single component single primary

**Terminal Type And Quantity:**

9 wire lead

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A058b0
