Power Transformer - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5950-01-212-7767

Reliability Indicator:
lot established
nput-output Phase Relationship:
Single phase to single phase single component
nclosure Type:
fully enclosed
Mounting Method:
erminal single group
Vinding Function And Quantity:
primary and 1 secondary single component
Vinding Operating Voltage:
20.00 ac volts and 208.00 ac volts and 240.00 ac volts and 416.00 ac volts and 480.00 ac volts and 800.00 ac volts single
omponent single primary
erminal Type And Quantity:
wire lead
Shelf Life:
J/a
Init Of Measure:
-
Demilitarization:
No.
iig:
NO58b0
