Dummy Terminal Quantity (non-core):
5
Reliability Indicator:
Not established
Input-output Phase Relationship:
Single phase to single phase single component
Inclosure Type:
Fully enclosed
Mounting Method:
Terminal single group
Winding Function And Quantity:
2 primary and 1 secondary single component
Terminal Type And Quantity:
12 pin
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A058b0
