Reliability Indicator:

Not established

Overall Length:

2.085 inches

Overall Height:

0.990 inches

Overall Width:

1.985 inches

Input-output Phase Relationship:

Single phase to single phase single component

Distance Between Mounting Facility Centers:

1.600 inches single mounting facility single center group

Inclosure Type:

Fully enclosed

Mounting Facility Quantity:

2 single group

Mounting Method:

Threaded hole single group

Winding Function And Quantity:

1 primary and 6 secondary single component

Special Features:

5th sec-center tap, 6th sec-center tap

Terminal Type And Quantity:

25 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
