Overall Length:

12.000 inches

Overall Height:

25.000 inches

Overall Width:

15.000 inches

Frequency Rating:

60.0 hertz single component

Input-output Phase Relationship:

Single phase to single phase all components

Maximum Transformer Power Rating:

15.0 kilovolt-ampere single component

Winding Function And Quantity:

2 primary and 2 secondary single component

Winding Operating Voltage:

480.00 ac volts 2nd component 2nd primary

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A058b0
