Reliability Indicator:

Not established

Input-output Phase Relationship:

Single phase to single phase single component

Body Length:

0.510 inches

Body Width:

0.150 inches

Body Height:

0.385 inches

Maximum Operating Temp:

125.0 degrees celsius

Inclosure Type:

Fully enclosed

Mounting Method:

Terminal single group

Winding Function And Quantity:

1 primary and 1 secondary single component

Unpackaged Unit Weight (non-core):

0.090 ounces

Terminal Type And Quantity:

4 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A058b0
