Reliability Indicator:

Not established

Frequency Rating:

20.0 kilohertz and 25.0 kilohertz single component

Inclosure Type:

Fully enclosed

Winding Function And Quantity:

1 primary and 3 secondary single component

Winding Operating Voltage:

6.00 ac volts and 15.00 ac volts and 21.00 ac volts and 30.00 ac volts single component 3rd secondary

Terminal Type And Quantity:

13 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
