NSN 5950-01-229-3598

Power Transformer - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5950-01-229-3598 **Reliability Indicator:** Not established **Overall Length:** 1.035 inches **Overall Height:** 1.035 inches **Overall Width:** 0.766 inches Frequency Rating: 9.6 kilohertz single component Input-output Phase Relationship: Single phase to single phase single component **Inclosure Type:** Fully enclosed **Mounting Facility Quantity:** 4 single group **Mounting Method:** Unthreaded stud single group **Winding Function And Quantity:** 1 primary and 4 secondary single component **Winding Operating Current:** 25.0 milliamperes ac single component single primary ıry

Winding Operating Voltage:
5.385 dc volts single component single seconda
Terminal Type And Quantity:
15 pin
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A058b0
