Reliability Indicator:

Not established

Inductance Rating:

0.180 microhenries single component single primary

Body Length:

0.160 inches

Body Width:

0.125 inches

Body Height:

0.125 inches

Inclosure Type:

Fully enclosed

Winding Operating Current:

430.0 milliamperes ac single component single primary

Special Features:

2 bonding pad terms

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A058b0
