Reliability Indicator:

Not established

Body Length:

2.250 inches

Body Width:

1.625 inches

Body Height:

2.000 inches

Inclosure Type:

Fully enclosed

Mounting Facility Quantity:

2 single group

Mounting Method:

Unthreaded hole single group

Winding Operating Current:

120.0 milliamperes dc single component single secondary

Winding Operating Voltage:

20.00 ac volts single component single secondary

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
