**Reliability Indicator:**

Not established

**Input-output Phase Relationship:**

Single phase to single phase single component

**Winding Function And Quantity:**

1 secondary single component

**Winding Operating Current:**

600.0 amperes ac single component single primary

**Special Features:**

Primary rated but not included

**Terminal Type And Quantity:**

2 threaded stud

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A058b0
