Turn Quantity:

4 single component single winding

Inductance Rating:

8.00 microhenries single component single winding

Core Construction:

Laminated single component

Inclosure Type:

Fully enclosed

Rating Method:

Winding turns single component single winding

Winding Operating Current:

200.0 amperes dc single component single winding

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
