**Reliability Indicator:**

Not established

**Inductance Rating:**

4.81 henry single component single winding

**Frequency Rating:**

50.0 hertz single component or 60.0 hertz single component

**Inclosure Type:**

Open

**Dc Resistance Rating In Ohms:**

90.000 single component single winding

**Winding Operating Voltage:**

110.00 ac volts single component single winding

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A058b0
