Reliability Indicator:

Not established

Inductance Rating:

4.81 henry single component single winding

Frequency Rating:

50.0 hertz single component or 60.0 hertz single component

Inclosure Type:

Open

Dc Resistance Rating In Ohms:

90.000 single component single winding

Winding Operating Voltage:

110.00 ac volts single component single winding

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
