**Reliability Indicator:**

Not established

**Overall Length:**

17.940 inches

**Overall Height:**

10.380 inches

**Overall Width:**

15.000 inches

**Input-output Phase Relationship:**

Single phase to single phase single component

**End Application:**

Arsr3, p/o radar assembly, modulator

**Inclosure Type:**

Fully enclosed

**Mounting Method:**

Slot single group

**Winding Operating Current:**

21.2 amperes ac single component single primary

**Special Features:**

Primary terminals 1 and 2, 320v peak, 1000us, 365 pps; function: transformer, charging; reference data: 6a12t1, ti-6340.8 arsr-3 system, part ii, sec 8, vol 9, pg 8-749

**Terminal Type And Quantity:**

5 wire loop

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A058b0
