**Reliability Indicator:**

Not established

**Turn Quantity:**

10-1/2 single component single winding

**Coil Form Type:**

Hollow single component

**Adjustment Device Drive Type:**

Shaft single component

**Body Length:**

0.9 millimeters

**Body Width:**

0.9 millimeters

**Body Height:**

1.8 millimeters

**Inclosure Type:**

Open

**Mounting Method:**

Terminal single group

**Adjustment Method And Quantity:**

1 adjustable core single component

**Terminal Type And Quantity:**

2 pin

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A058b0
