Reliability Indicator:

Not established

Turn Quantity:

10-1/2 single component single winding

Coil Form Type:

Hollow single component

Adjustment Device Drive Type:

Shaft single component

Body Length:

0.9 millimeters

Body Width:

0.9 millimeters

Body Height:

1.8 millimeters

Inclosure Type:

Open

Mounting Method:

Terminal single group

Adjustment Method And Quantity:

1 adjustable core single component

Terminal Type And Quantity:

2 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A058b0
