Overall Length:

1.000 inches

Overall Width:

1.000 inches

End Application:

Forward power supply

Mounting Method:

Terminal all groupings

Winding Operating Current:

0.5 amperes dc 2nd component 2nd secondary

Winding Operating Voltage:

350.00 dc pounds per hour wet 1st component 1st primary

Special Features:

Inverter, flyback

Terminal Type And Quantity:

12 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A058b0
