**Overall Height:**

14.940 inches

**Overall Width:**

10.500 inches

**End Application:**

Next generation radar (nexrad)

**Thready Qty Per Inch (tpi):**

32 all groupings

**Dc Resistance Rating In Ohms:**

3.500 all components all primary output

**Special Features:**

depth 6.88 inches , electrical input is 2340.000 v wkg, unit is designed to operate in transformer oil; electrical output is 32.6 a pk, 1.10 amp maximum filament

**Thread Series Designator:**

Unc all groupings

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A058b0
